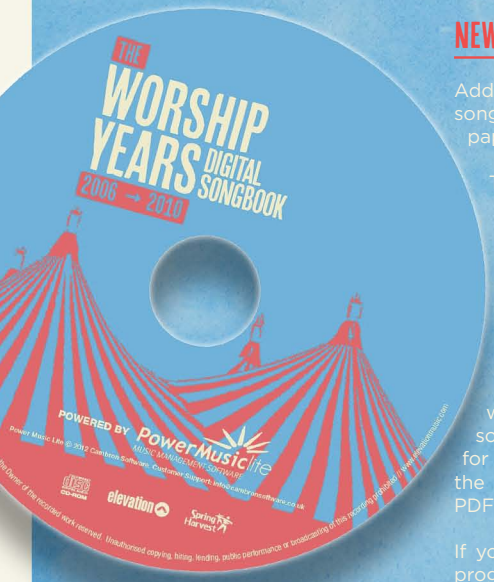
2006 → 2010

COMPACT disc DIGITAL AUDIO CD-ROM

FEATURING DIGITAL SHEET MUSIC AND GUITAR CHORDS FOR OVER 450 SONGS FROM THE SPRING HARVEST PRAISE 2006-2010 SONGBOOKS

DISCOVER THE SPRING HARVEST WORSHIP YEARS 2006-2010 DIGITAL SONGBOOK

Over the years of the Spring Harvest songbook, there have been many helpful guest comments made which help us to refine our resource and hopefully deliver something more useful the following year. The one problem we've always struggled to solve is when a worship leader wants to play the song in a different key to the book. This may be because they need to sing it in a different register for male or female voice, or just drop it up or down a key to make it easier to lead. It may be that we want some songs to flow in a medley and to have them in the same key may help this to work. We are very excited to partner with Power Music and bring you The Worship Years 2006-2010 Digital Songbook featuring the ability to change the key of the guitar chords for every song. Note that the music scores cannot be changed; maybe we'll be able to achieve this in the future! Any of the songs can be printed out for your worship team or by utilising the software directly from a PC you can use monitor screens as "digital" music stands. You can build playlists for your church service, search the songs by title, first line, Scripture or theme and also ensure that everyone is playing in the same key. By going online you can see just how easy it is to use the Digital Songbook powered by Power Music Lite. We recommend though that you upgrade from within the Songbook to the full version as this enables you to add your own songs as well as create your own categories and receive future updates.

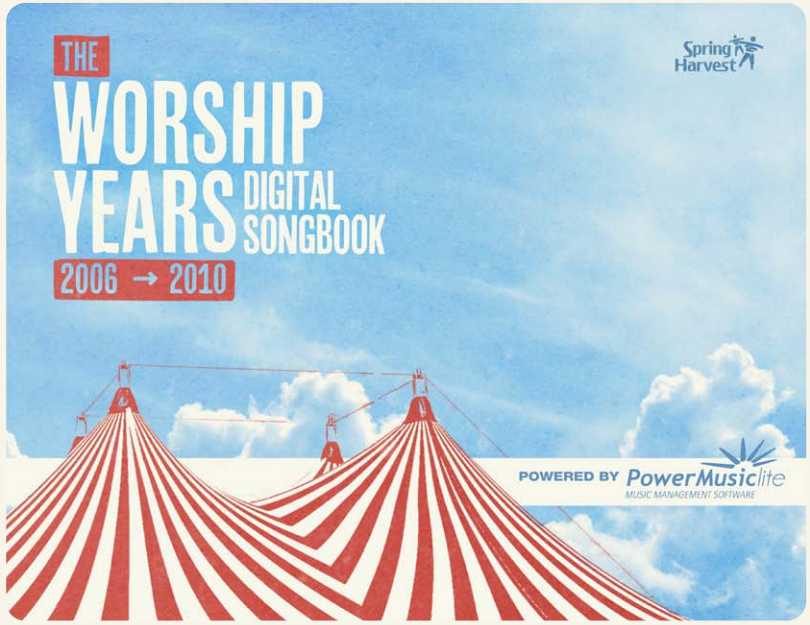


NEW FOR 2012

Add highlights and sticky notes to the songs, just as if you were writing on a paper book!

To see the software working go to **www.springharvest.org/digisongbook** where you can see short videos to help get to grips with the software. As with all new software expect a small learning curve, but the intuitiveness of the software makes it easy to use and makes a huge difference to both worship preparation as well as 'live' worship leading. Presently this software is Windows PC based but for Mac users we have also packaged the song scores and guitar chords as PDFs.

If you have any support issues on the programme, email Power Music on **info@cambronsoftware.co.uk**



INSTALL

Install The Worship Years Digital Songbook

(Windows Compatible)

UPGRADE

Upgrade to the full power of Power Music

- Add and edit your own songs
- Import from pdf
